App Smashing

OKIOCAM + 5 Popular Learning Apps

OKIOLABS

OKIOCAM integrates flawlessly with all the most popular applications used for remote learning. Using a conventional webcam is fine when delivering standard online lectures, but when you want to make your lessons more dynamic and remove the restrictions that the use of a standard webcam imposes, look no further than OKIOCAM.

It could not be easier to use OKIOCAM. This article will show you how to use OKIOCAM with Screencastify, Flipgrid, Seesaw, Screencast-O-Matic, and WeVideo.

▷ Screencastify

Over 12 million people use Screencastify to record, edit, and share videos. Many of those users are online educators. OKIOCAM easily integrates with Screencastify to allow those educators the ability to more easily produce their very best educational content. Here's how you can easily record with your OKIOCAM:
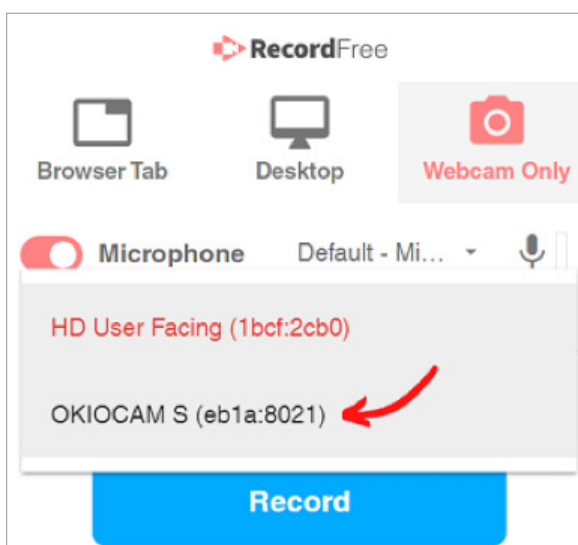

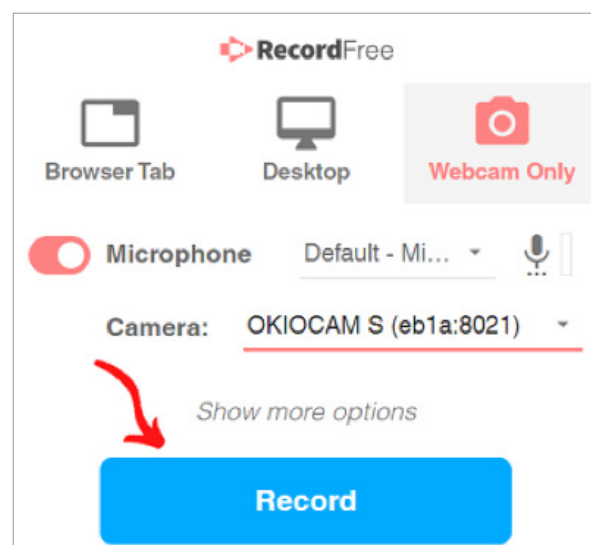

❶ Click on **Webcam Only**.

**❷** Click on the **Camera** drop-down menu.

❸ Select your OKIOCAM.

❹ Click on the blue **Record** button to start recording.
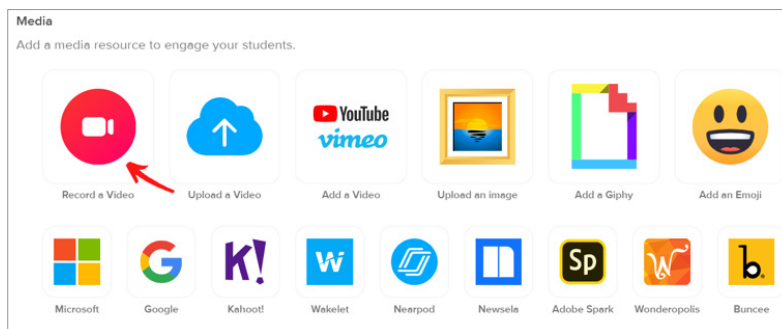

5 The recording preview window will open automatically, allowing you to see what you are recording.
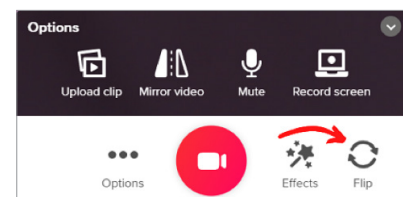

+

 Flipgrid

Educators and learners from 180 countries use Flipgrid to facilitate their educational discussions. Educators can post questions, ideas, and prompts with the goal of getting their students' brains working in overdrive. Students then share their ideas and work with their teachers. Flipgrid is an invaluable tool for teachers to use for maintaining thriving personal relationships with their students when they are educating students remotely.
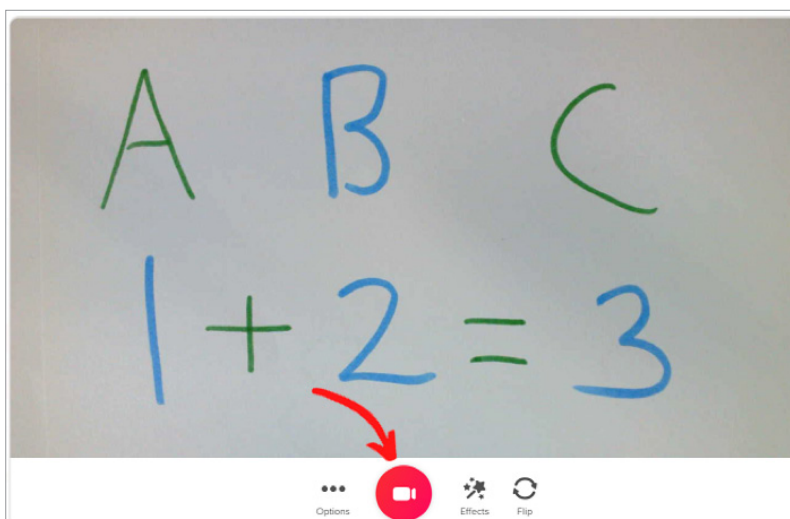

1 On the **Create a New Topic!** page, click on **Record a Video**.

2 From within the video recording interface, select the **Flip** icon from the toolbar to switch between cameras.

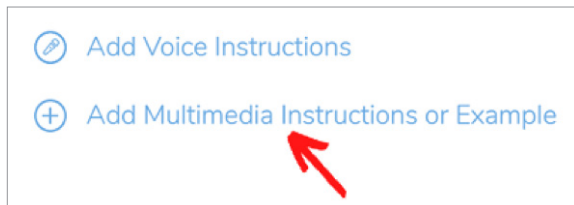

**3** Press the **Record** icon to start recording a video.

+ Seesaw

Seesaw is an innovative platform that allows parents to supervise and get involved with their children's online learning. Seesaw makes it easy for students, parents, and teachers to build and maintain educational relationships. Students can show teachers their work, allowing teachers to develop a greater understanding of their students' thinking, and finally, parents can view the progress that their children are making and stay connected with the teachers. Below are instructions on how you can use OKIOCAM with Seesaw:
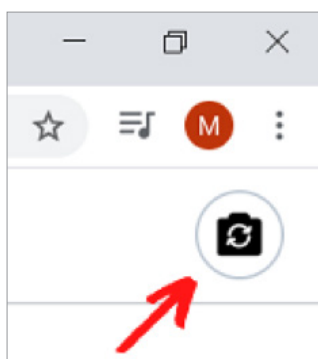

❶ On the **Create New Activity** page, click on **Add Multimedia Instructions or Example**.

❷ On the **Attach Item** page, select **Video**.

❸ At the top-right corner of the **Record a Video** page, click on the camera icon to switch between cameras.

❹ Click any of the three **Record** icons to start recording a video.

+
Screencast-O-Matic

Over 9 million users worldwide have used Screencast-O-Matic to record and edit videos. The team behind Screencast-O-Matic believes video is a super powerful tool for communicating with others, capturing ideas, and engaging people. We've gotta say, we agree with 'em! Here's how you can get up and running with OKIOCAM and Screencast-O-Matic:
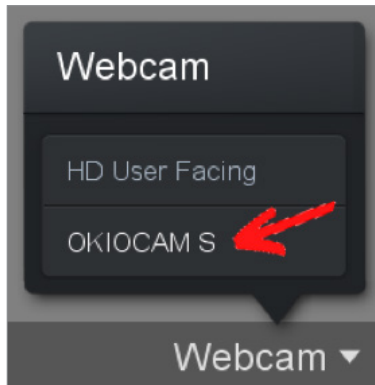

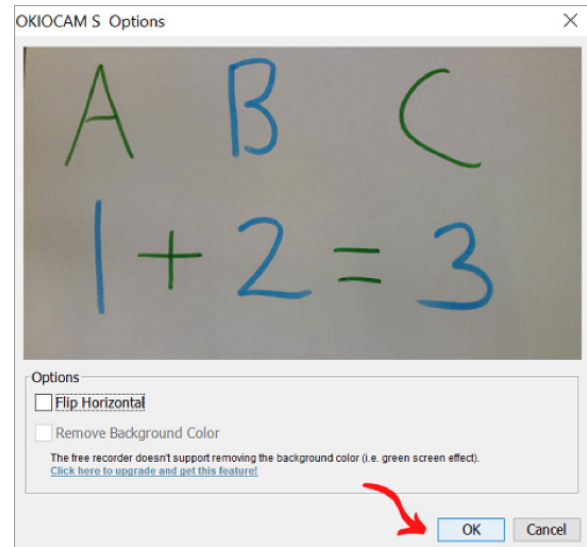

❶ Click **Webcam** next to the camera icon.

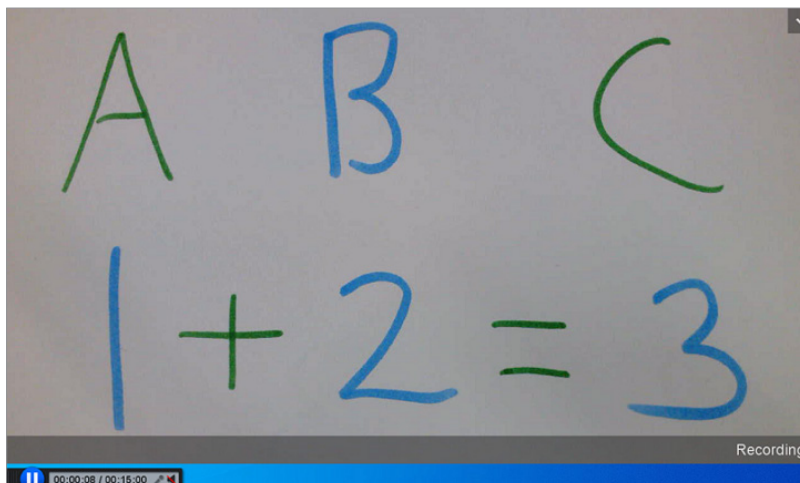

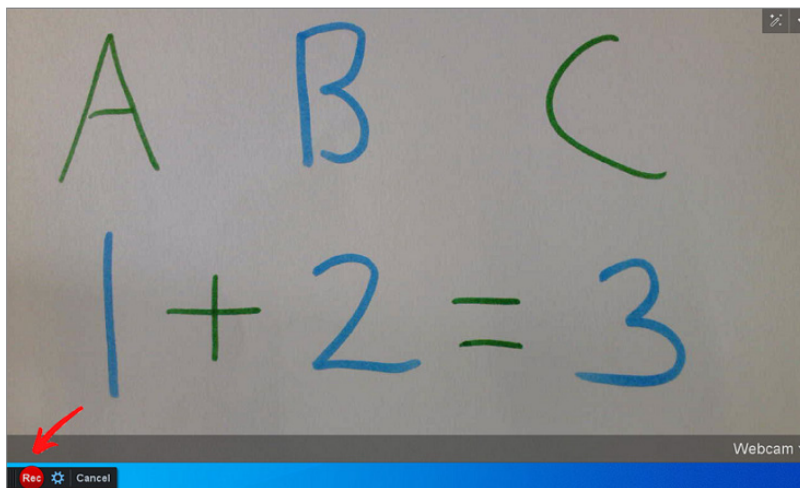

❷ Select **Webcam** in the bottom right corner.

❸ Select your OKIOCAM.

❹ Click **OK**.

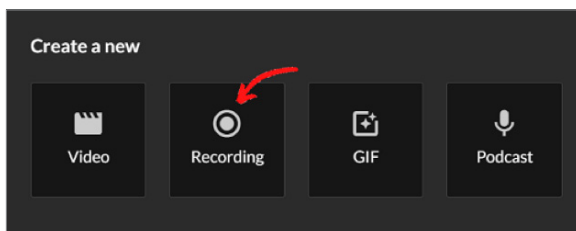

❺ Click on the red **Rec** icon to begin recording.

WeVideo

WeVideo is an online video creation tool used by millions of students across grade levels and throughout a variety of subjects. WeVideo empowers students to collaborate and learn through video creation. With young people consuming more video now than ever before, the role that video plays in education is huge. Here's how OKIOCAM works with WeVideo:
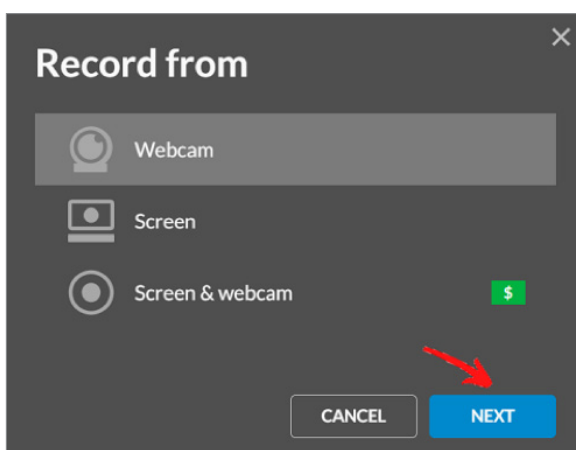

❶ On the Dashboard, click **Recording**.

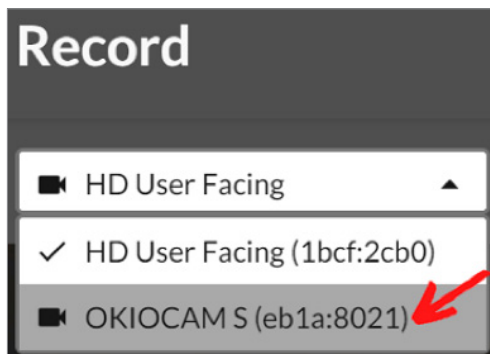

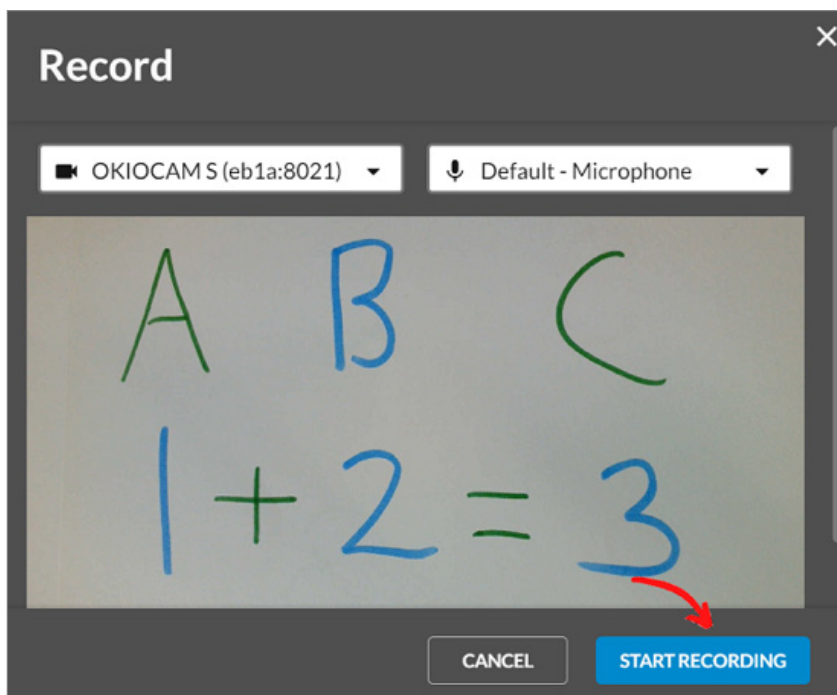

❷ Select **Webcam**.

❸ Click **Next**.

❹ Click the drop-down menu under **Record**.
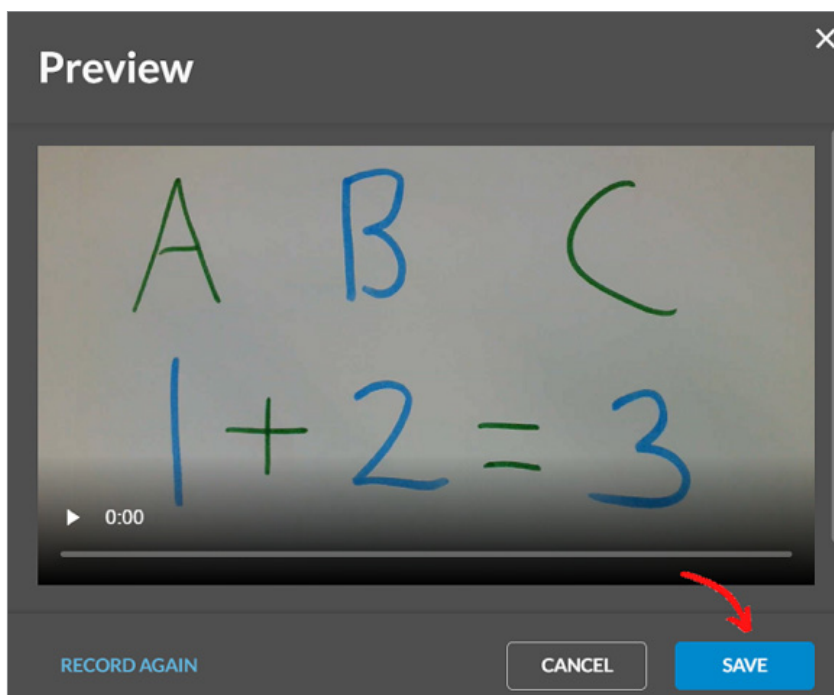

5 Select your OKIOCAM.

6 Click **START RECORDING**.

7 When you have finished recording, click **STOP**.

8 To save your recording click **SAVE**. You can now edit your video using WeVideo's online video editor.
